This bill would make it unlawful for any person to use a state-owned or state-leased computer to access, view, download, or otherwise obtain obscene matter.

The bill would not apply in instances where the obscene matter was obtained for use consistent with legitimate law enforcement purposes.

The January 4, 2006, amendment expanded the instances in which the bill would not apply to include legitimate legislative purposes.

The amendment would not affect the department's programs or operations. The department's analysis of the bill as introduced February 16, 2005, still applies.
